

JKB 14 Set with JUWATHan

Load capacity: 2 x 14 t

Height: 180 mm

Art.-Nr. 14 140 140-DVu

Advantages of revolving transport trolleys

- High load capacity at low weight.
- Bearing supported swiveling castors allow 360° maneuverability.
- JKB 14 G has same height as transport trolleys series G.
- Optional connecting bars can be offered up to 3 m length.
- All products are also available in a set of two with price advantage.
- Unrivalled: The narrow castors reduce rolling and turning resistance to a minimum.
- In addition, all the rotational trolleys have a platform center hole to allow attachment to the load.
- For choosing the adequate revolving trolley we recommend a load of two-third of the maximum capacity. This will be the most advantageous compromise between payload, ergonomics and handling of the devices.
- Pulling handle and connecting bars available as accessories.
