

# Adjustable trolley JFB 120 H Professional

Power and stability - the JFB 120 H transport trolley from JUNG can lift loads of up to 120 t with an installation height of 240 mm.

**Product number** 10 912 206-H

**Weight** 815kg

## Product description

Advantages of the transport trolleys JFB 120 H

- Unrivalled: Small and lightweight trolleys at super high capacity.
- Steerable transport trolleys with pivoting cassettes for a better load distribution at all castors and the floor.
- All transport trolleys are ready for use: the steerable transport trolley is fitted with a ball bearing supported turntable and a handlebar. The adjustable-width transport trolley consists of two transport units and connecting bar.
- Also available as Professional version with JUWathan twin castors: the double castor design results in dramatically easier steering due to reduced friction forces in curves. The much lower friction resistance also causes the castors on the rear axis to follow in a truer course.

## Product properties

<b>Supporting surface per cassette (mm)</b>	440 x 300
<b>Load capacity (t)</b>	120
<b>Cassette dimensions (mm)</b>	960 x 830
<b>Weight JUWathan® (kg)</b>	815
<b>Height (mm)</b>	240
<b>Castor dimensions (Ø x l mm)</b>	200 x 85
<b>Cassettes adjustable from - to (mm)</b>	830 - 2 530
<b>Load capacity (suitable)</b>	81 - 200 t
<b>Connecting bar with joint (mm)</b>	2 x 3 000
<b>Number of twin castors (pcs.)</b>	48
