

Revolving transport trolley JKB 6 K Set

Agile and powerful revolving transport trolley from JUNG. The JKB 6 K transport trolley set transports loads up to 12 t with an installation height of 110 mm.

Product number 14 061 085-D

Weight 82kg

Product description

Advantages of the revolving transport trolleys set JKB 6 K with JUWAmid

- The set consists of 2 JKB 6 K revolving transport trolleys.
- Optional connecting bars can be fixed without tools by clamping down on adapter.
- Despite its low weight, the wheel assembly can transport heavy loads.
- The wheel assemblies are equipped with ball bearing swivel casters that allow for a 360-degree rotation.
- Mix and match revolving trolleys with transport trolleys: With an installation height of only 110 mm*, the rotating transport trolley JKB 6 is compatible with all steering and transport undercarriages of the K series.
- Unrivalled: The double roller system reduces rolling and turning resistance to a minimum.
- Using the slots in the platform, the trolleys JKB 4 - 8 can be affixed to the load with standard tiedown belts.
- In addition, all the rotational trolleys have a platform center hole to allow attachment to the load.
- For choosing the adequate revolving trolley we recommend a load of two-third of the maximum capacity. This will be the most advantageous compromise between payload, ergonomics and handling of the devices.
- Drawbars and connecting rods are available as accessories in various lengths.
- Inspected according to technical regulation ANSI ? ASME (USA)

*) Due to technical changes, there may be tolerances of up to + 4.5 mm in the installation height since 2014.

Product properties

Load capacity (t)	12
Supporting surface per cassette (mm)	250
Castor dimensions (Ø x l mm)	85 x 43
Height (mm)	110
Weight JUWAmid (kg)	82
Number of castors (Pieces)	2 x 16
Consist of	2 x JKB 6 K
Cassette dimensions (mm)	675 x 525
