Product description

Advantages of the transport trolley JFB 30 G

- The pivoting cassettes and axles within the frame assure even pressure distribution across all castors and across the floor. No need for complex and expensive hydraulic compensation system.
- The double castor design results in dramatically easier steering and also causes the trolleys on the rear axis to follow in a truer course.
- All transport trolleys are ready for use.
- The adjustable-width transport trolley consists of two transport units and connecting bar.
