## Product description

Qualities of the multi-purpose transport trolley JLF Set 15

- The 15 t set includes: 3 x JLF5, 2 drawbars, and a connecting rod. The second drawbar is used for rear steering of the load being moved, allowing for very tight turning radii.
- Combined leading swiveling castors with trailing rigid castors. Swiveling lead castors make steering easier by up to 80 %.
- Ergonomic: reduces handling effort for user.
- Better directional stability on long straight-line paths with trailing rigid castors.
- Each trolley can be used for either steerable or straight-line movements.
- Extreme maneuverable with thrust bearing supported, anti-slip turntable.
- Trolleys can be used as steerable, adjustable or tandem trolley.
- Ideal for transporting loads on slalom paths including 90° true-to-course straight line, turning and sideways maneuvering.
- Floor protective, non-marking coating.
- Low profile. Low weight.
- Included in set is an additional pulling handle for steering of rear-trailing trolleys for tighter turning radius.
